

# MATERIAL SAFETY DATA SHEET

**WHITE FASTER FAMY ANTIBACTERIAL HAND, FACE, BODY CLEANSING FOAM**  
Safety of Harmful Substances and Mixtures Information Regulation on Forms (13.12.2014 Date and 29204 No. The Official Gazette) and (EU) are prepared in accordance with No 1272/2008.

Issue No: 2  
Date of Issue: 1.4.2019

Form No: MSDS-BY-002  
New Issue and Publication Date : 01.05.2020

Page 1/8

## 1-Identification of substance/mixture and company/distributor

### 1.1 Identification of the Substance/Mixture

Product Name : WHITE FASTER FAMY ANTIBACTERIAL HAND, FACE, BODY CLEANSING FOAM  
Product Code : KT-016

### 1.2 Selected uses and unrecommended uses of substance and mixture

Product Application Area : PERSONAL HYGIENE

### 1.3 Supplier Security Information Form

Manufacturer : WARMATECH TEKNOLOJİ SAN.TİC.A.Ş.  
Address : İSTOÇ Mahmutbey Mah. 2412 Sok. No:2/B  
(C Plaza Bağımsız Blm No:14) Bağcılar - İSTANBUL – TÜRKİYE  
Telephone : +90 212 8868500  
Fax : +90 212 8017577

### 1.4 Emergency telephone number

Emergency Phone : Call 0 212 485 30 13 and UZEM 114  
(NATIONAL POISON INFORMATION CENTER).

## 2- Hazards Identification

### 2.1. Classification of the Substance and Mixture

Classification according to the Regulation on Safety Data Sheets Regarding Hazardous Substances and Mixtures (Official Gazette No. 29204 dated 13.12.2014) Annex 1 and (EU) No 1272/2008:

Physical and chemical hazards: Unclassified.

Human health:

Eye irritation 1 H318 Causes serious eye damage.

P102 Keep out of reach of children.

P103 Read label before use.

P404 Store in a closed container.

P333+P313 If skin irritation or rash occurs: Get medical advice/attention.

P305 + P351 + P338 IN CASE OF EYE CONTACT: Rinse carefully with water for a few minutes. Remove contact lenses if fitted and easy to do. Continue rinsing.

P337 + P313 If eye irritation persists: Get medical advice/attention.

Environment: Unclassified.

Issue No: 2  
Date of Issue: 1.4.2019

Form No: MSDS-BY-002  
New Issue and Publication Date : 01.05.2020

Page 2/8

2.2. Label elements: CAUTION

2.3. Other hazards

See Section 12.5 for evaluation of PBT and vPvB results.

See Section 9 for physicochemical information. See section 11 for toxicological information.

See Section 12 for environmental information.

## 3- Information on Compound/Ingredients

3.1.Substances

3.2.Mixtures

Substance	Ec No	Cas No	Concentration (a/a)	Class, H statements
Benzalkonium chloride	270-325-2	68424-85-1	0,25	Skin abrasive 1B, H314; Eye irritation1, H318; Acute aquatic 1, H400 (M = 10); Acute chronic 1, H410; Acute Tox. 4, H302
Didecyl dimethyl ammonium chloride	230-525-2	7173-51-5	0,1	Skin abrasive 1B, H314; Eye irritation 1, H318; Acute aquatic 1, H400 (M = 10);Acute chronic 2,H411; Acute Tox. 4, H302

Contains Glycerin, 1-Hexadecanaminium, N,N,N-trimethyl, chloride, Cocoamide diethanonalide, Cocoamidopropyl Betaine, Cocoamidopropyl amine oxide, 5-chloro-2-methyl-2Hisothiazol-3-one and 2-methyl-2isothiazol-3-one.

## 4- First Aid Measures

4.1.Description of first aid measures

General Information: No special measures are required.

Inhalation: No special measures are required.

Eye contact: Wash immediately with plenty of water. Get medical attention if necessary.

Skin contact: No special measures are required.

Page 3/8

Ingestion: Rinse mouth with plenty of water, and then drink one or two glasses of water (or milk). Get medical attention if symptoms persist for a long time.

4.2. Most important symptoms and effects, both acute and delayed

Inhalation: No special measures are required.

Eye contact: Wash immediately with plenty of water.

Skin contact: No special measures are required.

Ingestion: Rinse mouth with plenty of water, and then drink one or two glasses of water (or milk). Get medical attention if symptoms persist for a long time.

4.3. First signs for medical intervention and special treatment requirement

Clinical testing and medical monitoring information is not available. Specific toxicological information on substances, if any, can be found in section 11.

## 5- Fire fighting measures

5.1. Extinguishing media

Use CO<sub>2</sub>, powder extinguishers or water. For larger fires, use pressurized water or alcohol-resistant foam.

5.2. Special hazards arising from the substance or mixture

There is no known specific danger.

5.3. Advices for Firefighters

Wear suitable protective clothing such as breathing apparatus, gloves and eye/face protection as in any fire.

## 6- PRECAUTIONS AGAINST ACCIDENTAL SPREAD/SPILLAGE

6.1. Personal precautions, protective equipment and emergency procedures

No special measures are required.

6.2. Environmental precautions

Do not allow to enter drainage system, surface or groundwater. Dilute with plenty of water.

6.3. Methods and materials for containment and cleaning up

Absorb spillages with liquid binders (sand, diatomite, general binders, sawdust).

6.4. References to Other Sections

See subsection 8.2 for personal protective equipment. See Section 13 for considerations for disposal.

Page 4/8

## 7- Handling and Storage

### 7.1. Precautions for safe handling

Usage Information: Follow general common rules when working with chemicals.

Fire and explosion protection information: No special measures are required.

Requirements for storage rooms and packaging: No special requirements.

Storage status in a common warehouse: Not required.

For environmental control, see subsection 8.2.

Advice on general occupational hygiene:

### 7.2. Conditions for safe storage, including any incompatibilities

It should be stored at temperatures between 0 °C and 30 °C away from direct sunlight.

### 7.3. Specific end uses

No special recommendations are available for end use.

## 8- Exposure Controls / Personal Protection

### 8.1. Control parameters

The product does not contain enough components that may require control.

### 8.2. Exposure controls

The usual measures taken for the use of chemicals must be observed.

Environmental exposure controls: No special precautions are required under normal use conditions.

Recommended safety precautions when working with diluted product:

Appropriate engineering controls: No special precautions are required under normal use conditions.

Appropriate organizational controls: No special precautions are required under normal use conditions.

Personal protective equipment Eye / face protection: No special precautions are required under normal use conditions.

Hand protection: Wash and dry hands after use. Avoid prolonged contact of the hands with detergent to protect the skin.

Body protection: No special precautions are required under normal use conditions.

Respiratory system protection: No special precautions are required under normal use conditions.

Environmental exposure controls: No special precautions are required under normal use conditions.

### 9-Physical and Chemical Properties

9.1. Information about basic physical and chemical properties

APPEARANCE : Liquid  
ODOR : Characteristic  
COLOR : Colorless transparent  
SOLUBILITY IN WATER: Freely Soluble  
Ph(25° C) :5,5-6,5  
FREEZING POINT: Not available  
BOILING POINT : 80°-100°  
VISCOSITY (25° C,mPa.s) : 60-80  
DENSITY (25° C) : 0.95 -1.05 gr /cm<sup>3</sup>

9.2. Other information

Surface tension (N / m): Not determined.

Corrosion to Metals: Not corrosive.

### 10- Stability and Reactivity

10.1. Reaction

No degradation known under normal storage and use conditions.

10.2. Chemical stability

Stable under normal storage and use conditions.

10.3. Possibility of hazardous reactions

None known under normal storage and use conditions.

10.4. Conditions to avoid

None known under normal storage and use conditions.

10.5. Substances to avoid

None known under normal use conditions.

10.6. Hazardous decomposition products

None known under normal storage and use conditions.

## 11- Toxicological Information

11.1. Information on Toxicological Effects

Data about the product

### ACUTE TOXICITY

Benzalkonium chloride  
LD 50 (oral rat)=795 mg/kg  
ATE (skin) >5000 mg/kg  
Didecyl dimethyl ammonium chloride  
ATE (oral) = 411 mg/kg  
ATE (skin) >2000 mg/kg

### IRRITATION

*SKIN*  
Result : -  
*EYES*  
Result : Causes serious eye damage.

Relevant and available raw material data are listed below.

Acute oral toxicity

Substances	End Point	Value (mg/kg)	Type	Method	Exposure Time
Benzalkonium chloride	LD 50(oral) ATE(skin)	795 >5000	Rat Calculated	-	-
Didecyl dimethyl ammonium chloride	ATE(oral) ATE(skin)	411 >2000	Calculated Calculated	-	-

## 12 – Ecological Information

12.1. Toxicity

General Information:

When the product is used for the specified purpose, it does not have any adverse effects on the environment.

12.2. Persistence and degradability

The product is more than 80% biodegradable.

12.3. Bioaccumulative potential

not applicable

12.4. Mobility in soil

not applicable

12.5. Results of PMT and vPvB evaluation  
not applicable  
12.6. Other adverse effects  
not applicable

## 13- Disposal Considerations

13.1. Waste treatment methods  
Product: Dispose of in accordance with official regulations. It should not be disposed of with household waste. Do not allow undiluted product to reach the sewage system.  
Package: Dispose of in accordance with official regulations.  
Suitable cleaning agent: Water, if necessary with cleaning agent

## 14- Transport Information

14.1. UN Number  
Non-dangerous goods  
14.2. Suitable UN transport name  
Non-dangerous goods  
14.3. Transport hazard class(es)  
Non-dangerous goods  
14.4. Package group  
Non-dangerous goods  
14.5. Environmental damages  
Non-dangerous goods  
14.6. Special measures for user  
Non-dangerous goods  
14.7. Public transport according to MARPOL 73/78 annex II and IBC code  
The product is not transported in bulk tankers.

## 15- Regulatory Information

15.1. Safety, health and environmental legislation specific to the substance or mixture  
Issued in accordance with the Regulation on Safety Data Sheets Regarding Hazardous Substances and Mixtures (Official Gazette No. 29204 dated 13.12.2014) and (EU) No 1272/2008.

It is labeled according to the cosmetic regulation.

Be sure to read the instructions for use. Keep away from foodstuffs. Rinse with plenty of water after washing your hands.

If it contacts the eyes, rinse with plenty of water. If necessary, seek medical advice. Keep away from children. Do not use for cleaning foodstuffs.

The active ingredients it contains are more than 80% biodegradable in nature.

15.2 Chemical Risk assessment  
No information available.

## 16- Other Information

This SDS has been issued within the information received from the raw material supplier company. The information provided with this Safety Data Sheet has been prepared in the light of the information received from WARMATECH TEKNOLOJİ SAN.TİC.A.Ş.. and is the most valid information as of the publication date. The information provided is intended only to assist in safe transport, use, storage, disposal. This document and the information provided do not constitute a guarantee for any property of the substance or preparation and are not considered as the quality specification. It is not legally binding and does not create a contract relationship. The information in this document relates to the specific material(s) specified in this text, and does not apply to materials used in conjunction with other materials or in any process and to materials that have been modified or processed, unless otherwise stated in the text.
