

USAGE OF MULTI CHOKE

The purpose of multi(internal) choke is to make barrel's tip narrowed down to shoot far and more collectively or to enlarge barrel's tip to shoot more wider groupment for small shoots.

To change or clean the internal choke, proceed as follows:

- 1) Unscrew the internal choke using the special choke wrench supplied with the shotgun and extract it completely from the barrel seat .
- 2) If the threaded seat of the choke on the barrel is too dirty, clean it.
- 3) Reassemble on the barrel seat the kind of choke required, taking care to insert the nonthreaded part inside the barrel, before screwing the choke on the barrel's thread .

NOTE: when choke is correctly mounted, it must not protrude from the barrel's muzzle.

- 4) Finish the assembly of the choke by screwing it firmly using the choke wrench .

NOTE: before re-using the shotgun, make sure that the choke wrench has been removed from the barrel's muzzle.

Before the shotgun is put away, cleaning the internal choke and relative barrel thread is recommended.

WARNING!!!

Do not use choke values 1-2-3 with slugs , single projectiles.
Do not use choke 1 or 2 with steel shot.

WARNING!!!

Never shoot steel shot with a full or improved modified cylinder or skeet chokes (marked 3-4-5 cuts respectively).
Do not use full,improved modified and modified (marked 1-2-3 cuts) with slugs, single bullets or single projectiles.
Never use cartridge with a case longer than the chamber, as this would have serious consequences for bolt the gun and the shooter.Do not use 3 ½'' cartridges (super magnum) in this shotgun.
Never shot without the choke tube fitted on the barrel.

CHOKE TYPES AND BENEFICIAL USAGE

| CHOKE TYPE | SYMBOL | GAME | PELLET SIZE | USEFUL SHOOTING DISTANCE |
|------------------------------------|---|---|--------------------|--------------------------|
| * 1 FULL |  | Goose, Duck, Wood Grouse. For long range hunting with lead shot and tight groups. | 1-2-3 | 50-60 Metres |
| ** 2 IMPROVED MODIFIED |  | Duck, Pheasant, Wood Grouse, Rabbit | 4-5-6 | 41-44 Metres |
| *** 3 MODIFIED |  | Partridge, Pheasant, Quail, Pigeons, Woodcock For long range hunting with lead shot and tight groups. | 5-6-7-8 | 31-41 Metres |
| **** 4 IMPROVED CYLINDER |  | Quail, Dove and target shooting For shooter distance more open shooting | 7-8-9- 10-11-12 | 30-35 Metres |
| ***** 5 CYLINDER |  | For sporting clay and skeet shooting. Short distances more open shooting. | 7-8-9- 10-11-12 | 20-30 Metres |
