

CLASSIC CHAMBER CONE FOR SHOTGUNS

Classic chamber cones cause jamming and prevent optimum focusing on target because of incorrect design on chamber and high pressure inside of the barrel.

SPECIAL DESIGN F12 EXTRA LONG FORCING CHAMBER CONE

This special extra long forcing cone will provide users %6 reduced recoil and optimum reduced movement to upward direction because of gas pressure inside of barrel while shooting. In this way shooters will be able to get higher shooting performance and target stabilization by special design F12 Extra Long Forcing Chamber Cone.
