

PRODUCT

The R500 SPI reversible key cylinder is a patented locking system which meets the highest safety standards required by both companies and privates. The R500 SPI is available in key different, key alike versions and suitable for Masterkey-systems.

APPLICATION

The patented R500 SPI reversible key cylinder is recommended for security and armoured doors.

VERSION

Available in compact and modular design as:

- single pofile cylinder
- · double profile cylinder
- pre-arranged for knob
- knob cylinder

Available in compact design as:

- · scandinavian type
- rim cylinder
- · round cylinder

TECHNICAL PRODUCT FEATURES

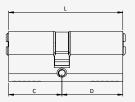

- Cylinder body and plug made of brass in the standard version matt nickel-plated
- · Suitable for installation in fire doors
- · Encryption pins in stainless steel
- Counterpins in brass
- Springs in stainless steel
- · Euro-profile cylinder (norm)
- · Locking cam made of sintered steel
- · Locking cam in min. 30° position (according to DIN)
- In each plug are 2 picking-resistant counterpins
- The drilling protection consists of hardened steel pin in the cylinder body and plug
- Patented SPI pin in key-profile, interacting with special pins in one chamber

SINGLE PROFILE CYLINDER

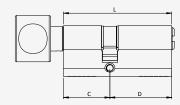

EUROPEAN DOUBLE PROFILE CYLINDER

EUROPEAN DOUBLE PROFILE CYLINDER. ROUND KNOB

FEATURES

R500 SPI has 6 encryption pins in the inferior line, up to 4 pins in the lateral line and up to 5 pins in the superior line from a length of 30-30 made of wear-resistant special brass, per locking side.

A drilling protection as well as anti-pick protection is integrated in the profile cylinder.

The surface of the cylinder body is matt nickel-plated or brass as standard.

The keys are made of nickel silver. The key is available with a co-printed head in black/red (20 mm key neck) or with keycaps in 5 different colours (18 mm key neck)

Optionally selectable features:

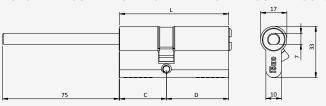

- emergency and danger function
- · free cam
- · construction key

STANDARDS

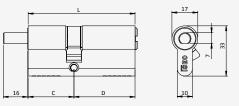

Compact and modular version: DIN EN 1303: 2015-08
